

FRIDAY, DECEMBER 17. 1742.

To the MANAGERS of the PLAY-HOUSES.

Gentlemen,  
Greater Grievance than any yet complain'd of, calls for immediate Remedy; and as of yourselves you have not endeavour'd at it, I must, in the peremptory Stile (no Offence to your constant Advocates the Captain and Tim.) acquaint you, That the Town expects it from you, and will not suffer a Play to be acted at either of your Houses, without Calling and signing (not the Actors but) you the Par Nobile of Managers; unless you take care that the Inhabitants of this Metropolis, may go to and from your Houses with Safety to their Persons and Properties, in a Week from and after the Publication of this.

The Grievance above hinted at, is the Number of PICKPOCKETS that infest both Houses, and fright away the most Ornamental Part of your Audiences, except when the dear little Garrigue acts, for whose pretty Sake what Risks will they not run!

Several Methods might be found out to prevent this Evil, some of which I will hint to you; that you may not think, Patriot-like, I mean to stir up the Publick to Sedition, and make your Administration uneasy.

The First I shall propose to you, would be to hire a competent Number of the Boxers at Tottenham-Cours, &c. at so much a Night. A Dozen of these, planted at the Entrance of either House, would soon clear the Passages of these noxious Vermin.

Another, To apply to the Acting Justices, for a Number of Constables to attend, who should have a General Privy Search Warrant for this Purpose, and take up every Vagrant loitering about the Playhouses. I propose (but this I submit) that the present H—b C—ble, whose Care in the Execution of such Warrants cannot be enough commended, superintend this.

A Third, to apply to the Gentlemen of the Navy, to send their Preb-Gangs every Evening.

A Fourth (as most of these Pickpockets belong to the Independent, Miserable, Scold Macons) should be to apply to their Worthy Representatives, who might make their Clearing the Play-houses a *Sine qua non* for their Compliance with their Instructions. I am,  
Gentlemen,  
A SPECTATOR.

Rome, Dec. 1.

Cardinal Belluga has caused the Relations of the Progress of the Missionaries in Thebet, and other Indian Countries heretofore mentioned, to be printed, and has sent a Copy of them to each of the Members of the Sacred College. The Facility which the Capuchins have found in propagating the Gospel in those Parts exceeds all our Expectations, and a Resolution has been taken to send thither immediately a new Supply of Missionaries, in order to enable them to proceed still more effectually in their Labours. The Chief of the Mosaiques in this City having lately dug up a Vineyard which he purchased, and which is situated near the Vatican fronting the Gate Fabioza, found there a Mosaique Pavement 150 Foot long, and other Marks by which it manifestly appears, that the Circus of the Emperor Adrian must have been here, tho' all the Antiquaries agree in placing it elsewhere. They continue digging in this Garden, where they find every day abundance of Needles, Obelisks, Statues, and other Antiquities with which it is known that Circus was adorned.

Madrid, Nov. 20. The Court will remain at the Escorial till the 7th of next Month. There arrived here about a Week ago a German Jesuit, who is said to have been Confessor to the late Emperor Charles VI. or to have had some other Employment of that Nature in his Court. He has frequent Conferences with the Ministry, and every Body agrees that he is a Person of deep Sense as well as great Penetration, but what his Business is cannot be so easily discovered. Our last Letters from Barcelona inform us, that the Swiss Regiment of Sury, and the Regiment of France, both Dragoons, continue their Route towards the Army of the Infant Don Philip. In the Beginning of December eight more Battalions, which are at present quarter'd in Estremadura, are to march the same Way; and it is look'd upon as a thing certain, that every Regiment of Foot in the Service will be augmented by a Battalion. The Court is so thoroughly satisfied with the Advices which it has received of the spreading of the Plague on the African

Coast, that Orders have been sent to the Ports of Alicante and Valencia, and since to all the other Ports in the Kingdom, forbidding them to suffer any Vessels coming from the Mediterranean, to have the Liberty of Trading till they have performed a rigorous Quarantine. A Vessel lately arrived in Galicia from Vera Cruz brings us no sort of News of what is doing in the Indies, however we are assured that it has on board 2,000,000 of Pieces of Eight on account of the Merchants, and about 400,000 for the King. We expect very speedily a large Ship of the Squadron of Admiral Torrez, which will bring 2,000,000 on the King's Account.

Extract of a private Letter from Amsterdam.

The Admiralty of this City have found it absolutely necessary to equip several Ships of the Line, in order to escort such Merchantmen as shall sail in the Spring to the Baltick. The Remembrance of the Depredations committed with Impunity by the Swedish Privateers in the Reign of Charles XII. when the State from a Principle of Frugality declined this Expence, has occasion'd our taking a Resolution to keep constantly in those Seas a Squadron of 10 or 12 Sail, to protect the only Branch of Commerce which as yet is not wholly swallow'd up by our Neighbours.

HOME PORTS.

Deal, Dec. 15. Wind E. This Morning sail'd the Lion Transport for Portsmouth. No Ship in the Downs.

LONDON.

Private Letters from Moscow insinuate, that some grand Negotiation is carrying on there, in which the Emperors is to enter into certain Engagements with the Kings of Great Britain and Prussia for the Re-establishment of the Peace of Europe. It is whisper'd that his Imperial Highness the Great Duke of Muscovy and Holstein will espouse a Sister of his Prussian Majesty, that Prince Frederick of Hesse will succeed to the Crown of Sweden, and that early in the Spring the Czarina will send a Body of 40,000 Men into Germany to the Assistance of the Queen of Hungary.

The Duke de Termoli, Ambassador from the King of the Two Sicilies to the Court of Madrid, has presented a Memorial setting forth the Inconveniences to which the King his Master would be exposed by sending any Troops whatsoever to join Count Gages, and desiring therefore that his Catholic Majesty will either desist from this Demand, or send the Squadron that now lies useless at Toulon to protect the Coasts of the Kingdom of Naples.

His Sardinian Majesty considering the Severity of the Season, and the prodigious Fatigue to which his Troops are continually exposed in their present Camp at Montmelian, has been pleas'd to order a Cow, a certain Quantity of Rice and other Provisions, to be distributed to every Company of Foot once a Week at his own Expence, so that all Difficulties about Provisions are absolutely removed, and his Forces are all fresh and full of Spirits.

Private Letters from Genoa of Dec. 1. inform us, that his Majesty's Ship the Guernley had carried into that Harbour a Dutch Ship which had on board 50,000 l. Sterling in Gold, which it was supposed belong'd to the Spaniards; but upon due Proof that it was design'd for the Service of the Queen of Hungary, Part of it was immediately sent to General Palavicini, and the rest was safely conveyed to Milan.

The Marquis de la Chetardie, who made some Stay at Frankfort in his Return from the Court of Russia, was taken extremely ill on the Day he should have set out from thence, which oblig'd him to defer his Departure for a Month. He has all imaginable Respect shewn him, and is attended by the Emperor's Physicians.

The Orders heretofore mentioned in this Paper to have been sent from the French Court to the Governor of Strasbourg, have been transmitted likewise to the Governors of Landau, Fort Louis, Brisack, and in short to all the French Fortresses on the Frontiers of the Empire, with a View to prevent the French Officers returning from Bohemia and Bavaria and spreading the News of the Calamities they suffer.

The Marshal Noailles, who commanded the French Army in Flanders, return'd to Paris on the 13th Instant N. S. and it is said, that after assisting at a general Council of War which will be held at Versailles, he will soon return to his Command, the Court being exceedingly alarm'd at the March of the Queen of Hungary's Auxiliaries from the Low Countries.

Private Letters from Holland suggest, that the States General having been inform'd of the Queen of Hungary's Resolution to receive no Propositions of Peace but

thro' the Canal of the British Ministry, they had thought proper to excuse themselves to the French Court from proposing any Mediation for this Reason.

Private Letters from Genoa of the 1st of December inform us, that Admiral Matthews having been reinforc'd with eight Ships of the Line, had dispatch'd a Frigate to Portmahone with Orders to bring the Bomb-vessels from thence, his Excellency intending to execute immediately a Design of the utmost Importance.

Yesterday Morning a poor Fellow that carried Meat for the Butchers in Leadenhall-market, going over Tower-hill his Foot slipp'd, and in his Fall the Burden he had on his Shoulders fell upon his Head, and killed him on the Spot.

The same Morning died at his House in Ratcliff Highway, of a Complication of Dilempers, Mr. Thomas Lypsham, an eminent Malt Distiller.

Yesterday the Court of Assistants of the Drapers Company made Choice of the Rev. Mr. Wills, Curate to Dr. Thomas, Rector of St. Bennet at Paul's Wharf, to be Morning Lecturer at St. Michael's in Cornhill, in the room of Mr. Gibson, deceased.

The Hon. House of Commons is adjourn'd to Tuesday next.

His Majesty will go to the House of Peers on Tuesday next, to give the Royal Assent to the Land-Tax and Malt Bill, and such others as are ready.

The Right Hon. the Lord Chancellor has presented the Rev. Mr. James Morgan to the Rectory of Lanilid with Chap Lamarham, in the County of Glamorgan and Diocese of Llandaff.

Yesterday about four o'Clock in the Afternoon two Boats endeavouring to cross from Parliament-stairs, Westminster, to Strandgate, wherein were four Women Passengers, and also one Man, were jam'd in with the Ice, almost in the Middle of the River, and a Boat endeavouring to go off to their Assistance shared the same Fate; and 'tis thought they must all perish, except the Tide of Flood carries them off.

A Scandalous Paper having been lately publish'd in several News-Papers, in the Name of the Burgeses and Inhabitants of the City and Liberty of Westminster, address'd to the Right Hon. the Lord Viscount Percival and Charles Edwin, Esq; their Representatives in Parliament, which Paper contains Matter of a very dangerous and Criminal Nature, and has a manifest Tendency to excite Disturbances in this Kingdom, by appealing from the Legislature to the People, and in plain and express Terms threatening popular Commotions; it is thought proper to acquaint the Publick, That the publishing the same under the Names of the Burgeses and Inhabitants of the City and Liberty of Westminster, as abovemention'd, is an infamous Forgery, and a gross and impudent Impostition on their worthy Representatives, for that there never was any Convention of the Burgeses and Inhabitants of the said City and Liberty in their Burgesis-court, to prepare or approve the said Paper, or any other Paper of the same Kind or Import whatever, which it was absolutely necessary there should have been to have made it their Act, or to have warranted the Printing and Publishing it under their Names: But, on the contrary, the said Paper, having been drawn up in a private and clandestine Manner, was produc'd, ready-prepar'd, at a Tavern-Meeting of a few low inconsiderable People, pack'd together for that Purpose, without any Authority or legal Summons for so doing, where there were but Two Burgeses and Two Assistants present out of Thirty-two Burgeses and Assistants of whom the Burgesis-court consists, and not One hundred and fifty Inhabitants out of at least Ten thousand who have a Right of voting for Members of Parliament for Westminster, Besides which, it is notoriously known, that the principal Authors and Contrivers of this Daring and Outragious Insult upon his Majesty and his Parliament, are Men of desperate Fortunes and abandon'd Characters, the Promoters and Ringleaders of all kind of Riot and Disorder, and who have no other Shelter or Resource left, but in Popular Commotions and Publick Confusion.

**To Persons of either Sex**

**Afflicted with any Species of the PALSY, or  
other NERVOUS DECAYS.**

**NEVER were NERVOUS DISEASES,**

**PALSIES, and PARALYTICK DISORDERS** so frequent as  
of late they have been, nor have the usual Remedies been  
found adequate to those pertinacious Distempers: This oc-  
casioned a Physician, who employ'd his Thoughts much  
concerning them, to adapt a Medicine, a *Sovereign Elixir*, pecu-  
liar to, and effectual for, the Palsy, and all other nervous  
Complaints now reigning, which after he had experienced  
vast Numbers of Persons of both Sexes, and always with  
surprising Success, even so as infallibly to cure by it the  
Palsy, and all Paralytick Effects and Nervous Disorders,  
he permitted it to be made publick for a general Good, that  
so those labouring under these miserable Ailments, might  
know where to meet with a safe and most certain Cure,  
which it accomplishes in so short a Time, and with such Ease  
and Pleasure (a few Drops of it being a Dose, highly ap-  
proachable to the Palate, and comforting to the Stomach and Bowels)  
as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its  
prodigious Efficacy to every one, and the Patients soon find  
all Numbness, Deadness, and Shaking, or Resolution of the  
Nerves, as well as all convulsive, cramp-like, or paralytic  
Contractions of them, vanish and return no more; and thus  
though these Diseases have been of many Years standing, and  
whether occasioned by long Illness, fast Living, hard Study-  
ing, or any other Cause; for it performs all that can be  
wish'd for in Nervous Cases, creates an Appetite, expels Wind,  
rectifies the Digestion, occasions laudable Chyle, attenuates  
the Blood and Juices, causes a free and regular Circulation of  
'em thro' the Capillary Vessels, revives and increases the  
Spirits, warms, comforts, strengthens, and replenishes the  
Brain and whole Nervous System, hence the Sinews, Tendons,  
Ligaments, and all the enfeebled Parts are invigorated, the  
Limbs restored to their pristine Steadiness and Strength, and  
the Palsy and all Paralytick Disorders and Nervous Decays  
suddenly cured by it, to the Admiration of the Patients  
themselves, and all about them.

According to Letters of the 17th from Berlin, the good Understanding continues betwixt the Courts of Prussia and Saxony, and 'tis even said that there will be an Interview between the Kings of Prussia and Poland, after the former has receiv'd Homage at Breslau.

Letters of the 9th O. S. from Hanover say, that the Marshal de Maillebois who commands the French Troops made a Scruple to conform to the Convention which M. de Buffi had sign'd with regard to the Winter Quarters, but that however the latter had engag'd to remove that Obstacle, and that then the King's Troops would go into their Winter Quarters.

The Right Hon. the Lord Harrington arriv'd last Monday Night at the Hague from Hanover.

The Elector of Mentz was to make his Publick Entry last Saturday at Francfort, where the Baggage, Equipages, &c. of the several Electors were arriving every Day. The sumptuous Coaches and Horses of the Baron de Munchausen, Chief of the Embassy from his Britannick Majesty as Elector of Hanover, arriv'd there last Wednesday Se'nnight.

### To my Worthy Countrymen and Brother Freeholders.

Being inform'd, That several Persons are very industrious, by false and deceitful Insinuations, to lessen the Regard that you are pleas'd to have for my Conduct in Parliament, I think myself oblig'd in Vindication of my Character to assert, that in every Publick Emergency I have constantly acted from a disinterested and unbiass'd Principle, and steadily adher'd to that Side of the Question, which, upon a View of all Circumstances, appear'd to me the most conducive to the general Welfare of the Nation.

And as it has likewise been artfully suggested to my Prejudice, that I do not intend myself to represent you in Parliament, but design underhand and treacherously to transfer my Interest as the Time of the Election to some other Gentleman, I do hereby solemnly declare, that this Report is false and groundless, and that such a mean, ungenerous Project never once enter'd my Thoughts, nor was ever propos'd or hinted to me by any Person whatever.

And therefore I hope you will not suffer yourselves to be impos'd upon and inveigled by such fallacious and disingenuous Artifices, but will favour me with your Votes and Interest at the ensuing Election, which I shall ever account the truest and greatest Honour, that can be conferr'd upon,

GENTLEMEN,  
Thursk, Your most obliged,  
Oct. 6. 1741. Faithful Servant and Countryman,
